20. ABSTRACT (Continue on reverse side if necessary and identify by black number)

This bibliography has been prepared for use in the Ocean Prediction Through Observation, Modeling and Analysis (OPTOMA) program. It updates the 1980 publication: "Bibliography for the Coastal Circulation of the Eastern North Pacific. In addition, mesoscale ocean modeling references related to the California Current System have been included.

NUTES

(i) This bibliography supplements the following publication: Moders, C.N.K., R.G. Williams, K.C. Vierra and G.R. Halliwell. Jr., 1980. Bibliography for the Coastal Circulation of the Eastern North Pacific. College of Marine Studies, University of Delaware, 77 pp.

In addition, mesoscale ocean modeling references related to the California Current System have been included.

- This bibliography has been prepared for use in the Ocean Prediction.
 Through Observation, Modeling and Analysis (OPTOMA) program.
- The author would appreciate being sent any information on missing items from this bibliography update.
- (4) The typing assistance of Ms. Ann Marie Regal is gratefully acknowledged.
- The following people provided editorial and contributory assistance:
 Professor C.N.K. Moders
 Dr. D.B. Chelton
 Dr. D.B. Enfield

Dr. M.M. Rienecker

(6) The author thanks Professor C.N.K. Moders for suggesting the topic.
